* Subject to qualification, change in program terms and credit approval. If approved, your initial reduced rate, which will be effective for advances made from February 1, 2021 to December 31, 2021, will be based on your 2020 Polaris Acceptance financed pre-owned volume (PV). At the end of the second, third and fourth quarters in 2020, PA will take the sum of your 2020 PV and your year-to-date PV to determine if you qualify for a further reduced rate. Any further reduced rates will be effective for future advances made from the first day of the second month after such quarter end to December 31, 2021. Existing interest rates will continue to apply until the initial reduced rate or a further reduced rate becomes effective. See transaction statement for reduced rate details. See your financing agreement (required for all dealers) for all terms and conditions. Nothing contained herein is, or shall be relied upon as, a promise, representation or commitment to provide financing or interest-free financing. This program is available only to customers located in the United States.
